1 Introduction

Download Brother iPrint&Label from the App Store

Brother iPrint&Label enables you to easily print labels from your iPhone, iPod touch, iPad, and iPad mini to a Brother label printer.

Install Brother iPrint&Label from the App Store. For best results, make sure you are using the latest version.

For iPad, the app appears under **iPhone and iPod touch app** in iTunes.

Device Connections

Connect your mobile device to your Brother label printer using one of the following connection methods:

- Wi-Fi Direct®
- Wi-Fi®
- Bluetooth

Depending on your Brother label printer and mobile device, supported connection methods may vary.

To configure your Brother label printer, see your label printer's *Quick Setup Guide*. Download the *Quick Setup Guide* from your model's **Manuals** page on the Brother Solutions Center at <http://support.brother.com/manuals>.

Set Up Your Label Printer

If a different label printer or if **Not connected** appears in the device list:

1. Tap .
2. Tap **Printer**.
3. Select your label printer.

If your label printer is not listed, tap **Set Manually**, and then enter the label printer's IP address listed on the Printer Configuration report. To print the report, see your label printer's *User's Guide*. Download the *User's Guide* from your model's **Manuals** page on the Brother Solutions Center at <http://support.brother.com/manuals>.

4. When finished, tap **Done**.

Set Label Size

Set the correct label size that is currently installed in the label printer.

1. Tap .
2. Do one of the following:
 - Tap **Size** and select the label size from the list.
 - Tap **Check Media** (if available for your label printer model).

If iPrint&Label cannot detect the label size, make sure that the label printer is turned on, the label roll is installed, and the label printer's cover is firmly closed.

3. When finished, tap **Done**.

2 Create Labels

Create a Custom Label

1. Tap .
2. Type your label text and tap **Done**.
 - To exit the text window without entering or saving text, tap **Done**.
3. To add an object, such as text, a symbol, an image, a bar code, or another item, to the label, tap .
4. Tap the object you want to add from the list.
 - To edit an object on the label, including text, double-tap the object.
 - To delete an object on the label, tap the object, and then tap **Delete**.

Create a Label Template

1. Tap a category you want, such as Address, Asset Management, or other.
2. Tap the label you want to edit.
 -  If a message about the label size appears, tap **OK**.
3. To add an object, such as text, a symbol, an image, a bar code, or another item, to the label, tap .
4. Tap the object you want to add from the list.
 - To edit an object on the label, including text, double-tap the object.
 - To delete an object on the label, tap the object, and then tap **Delete**.

Change the Font

1. When the label is displayed, tap the text to select it.
2. Tap **Font** to change your label text's Style, Font, or other Properties.
3. When finished, tap **Done**.

 Font options vary based on the label printer model you are using.

Change the Label Size

1. When the label is displayed, tap the label size, which appears as a measurement in the center of the bottom of your screen.

Example:  0.47"

 Label size options vary based on the label printer model you are using.

2. Do one of the following:
 - Tap **Size** and select the label size from the list.
 - Tap **Check Media** (if available for your label printer).
3. When finished, tap **Done**.

3 Save Labels

Save labels to reuse, edit, and print again.

Save a Label

1. To save the label that you are creating, tap **Save**.
2. Type a label name in the **Save As...** field, and then tap **Save**.

Open a Saved or Previously-printed Label

1. Tap **My Labels**.
2. Do one of the following:
 - Under **Saved Labels**, tap the previously-saved label you want.
 - Under **Print Log**, tap the previously-printed label you want.

Delete Saved or Previously-printed Labels

1. Tap **Edit**.
2. To delete one or a few specific labels, tap the label(s) you want to delete.
3. Tap **Delete**, and then tap **OK**.
 - To delete all saved or previously-printed labels, tap **Select All**, tap **Delete**, and then tap **OK**.
 - To exit without deleting, tap **Cancel**.

4 Print Labels

Print a Label

1. To print the label that you are creating, tap **Print**.
2. Change the print settings you want, including number of Copies, Cut Options, and other options.
3. Tap **Print**.

To exit without printing, tap **Cancel**.
