

The PINNACLE

Professional Series Machine Quilting Frame

The perfect companion to your favorite Brother sewing and quilting machine*, The Pinnacle 60/120" quilting frame comes complete with the accessories you need for professional free-motion stitches. Use the included rail extensions for a 120" frame that accommodates your larger, king size projects. With Grace technology and Brother innovation, those quilts you dreamed of making are a stitch away!

Grace Technology

Enhanced Carriage Design

Accommodates any machine with up to an 18" throat. The carriage rests on two sturdy plates, ensuring a smooth ride as you move your machine along the frame. The plates allow up to 16" of forward/reverse travel in the work area.

Easy Side Tension

The NEW Bungee Quick-Lock system includes four clamps (two for each side) to create the perfect side tension. Set-up is effortless: Apply the clamps, pull the cords through the slots and you're ready to quilt.

Precise Frame Leveling

The A-Frame design includes angled leg supports to maximize stability and ensure you have a smooth, level traveling surface.

Easy-in, Easy-out Rail System

The new, rigid Fabri-Fast rails install with ease and roll using a high-precision ratcheting system. Advance and reverse your quilt with the simple flip of a switch.

Included Accessories

Laser Stylus

- Cordless to avoid hang-ups as you quilt
- Swivel mounting system lets you position the stylus at any angle
- Choose the size of the beam with four head options
- Perfect for tracing your favorite pantographs on your table or fabric surface
- Runs on two AA batteries for extended hours of use **Batteries not included*

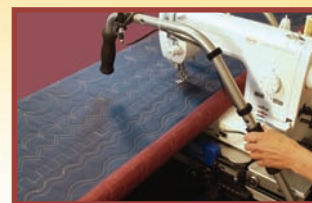

Lamp/Bulb Combo

- View the true color of your work area with the Goose Neck lamp that clamps to the front or side of the carriage
- Precise positioning to avoid view obstruction
- Extra-long power cord
- Low-heat bulb ensures your project is never too hot to work on

Pattern Perfect

- Eight patterns included
- Easy-to-follow panels guide the carriage seamlessly for a perfect pattern every time
- Connect templates for added creativity
- No-skid mat prevents template shifting
