

Projects > Decorative Spring Door Hanger

Add the feeling of spring to any room in the house with this decorative door hanger!

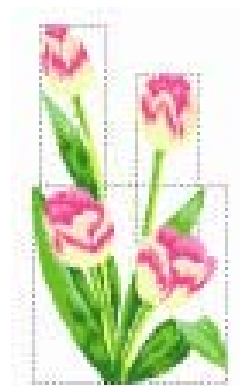

Materials and Supplies

- [Brother Embroidery Machine](#)
- [Brother Embroidery Thread](#)
- **Optional:** [PE-Design® 8.0 Brother Software](#)
- [Brother Lightweight Adhesive-Backed Water-Soluble Spun Stabilizer](#)
- [Brother Embroidery Card - Flower](#): Designs 22, 23, 24
- [Brother Open Toe Foot](#)
- Plain Placemat
- Decorative trim of choice
- Decorative wooden hanger

Machine Set Up

1. Open Embroidery Edit.
2. Import the designs in the order that they will stitch out, first design #22, then #23 and last #24.
3. Mirror image each design as you enter it into the machine for the look that is in the sample.
4. Move the flowers into position on the Embroidery Edit screen. Design #22 will be slightly behind #23, and #23 will be slightly behind #24. Refer to the blue print that comes with the card. [See Figure 1](#)
5. Open the alphabets in the machine and choose font.
6. Spell the word W-E-L-C-O-M-E.
7. Press **SET**.
8. Select **Array** and array Welcome. Move into position over the flowers.
9. Space the lettering as desired.
10. Select the letters to spell out S-P-R-I-N-G.
11. Select the word Spring and touch Array. Array Spring and move into position under the flowers.
12. Space the lettering as desired.

Embroidery Instructions

1. Hoop the Lightweight Adhesive-Backed Water-Soluble Spun Stabilizer.
2. Carefully remove the paper covering in the hoop area to expose the sticky surface.

Note: When positioning the design on the placemat, take into account the top fold-over measurement to create the "sleeve" for the hanger.

3. Place the design closer to the bottom of the placemat. About 1 ½" to 2" is needed at the top to fold over the wooden hanger.
4. Place the placemat in the hoop and embroider.
5. Remove from hoop and remove any remaining stabilizer.
6. Press.

Note: The designs could also be combined in [Brother PE-Design®](#) and then brought to the machine as one design.

Assembly Instructions

1. Fold over top to create the sleeve for your hanger. Make sure it is big enough to accommodate decorative ends of hanger.
2. Attach the Open Toe Foot.
3. Add additional trims on top and the bottom using decorative stitches and the open toe foot.
4. Insert decorative wooden hanger into the created sleeve.
5. Hang somewhere eye-catching!
