## Installing IrPrint to your Palm Powered device

- Locate the IrPrint Palm file (.prc) on your Brother MPrint CD

- Install the file to your Palm powered device by performing a HotSync® operation (if you are unfamiliar with the HotSync® operation please refer to your handheld's owners manual)

# Printing with IrPrint

- Tap the **Home** button on your Palm Powered device. A list of available programs will appear.

- Tap the **IrPrintBIL** icon to run IrPrint. The IrPrint Menu appears.

- Tap the icon of the application you wish to print from. The screen for the selected program appears.

- Select the category or view of the item you wish to print.

- Align the infrared lenses of the Palm device and the Brother MPrint printer. Ensure they:
    - Are no more than approximately 8 inches apart. (20cm)
    - Fall within a 30 degree total angle of each other.
    - Have an unobstructed path between them.

- Tap the **Menu** icon.

    - If the IrPrint command does not appear in the menu, IrPrint does not support the selected category or view.

- Tap **IrPrint** in the menu. If printing the To-Do list, tap Today, Tomorrow, or All to select which records to print. The IrPrint Setup box appears.

- Select the appropriate print options, then tap **OK**.
