Before you can use the machine, you must set up the hardware and install the driver. Please read the ‘Quick Setup Guide’ and this ‘Windows Vista®/Windows® 7 Installation Guide’ for setup and installation instructions.

**STEP 1**
Setting Up the Machine
First, please follow STEP 1 Setting Up the Machine in the Quick Setup Guide. Then return to STEP 2 Installing the driver & software in this installation guide.

**STEP 2**
Installing the Driver & Software
Please follow the steps in this Windows Vista®/Windows® 7 Installation Guide for driver & software installation instructions.

Setup is Complete!

Before using this manual

This manual is for Windows Vista®/Windows® 7 users only. This installation guide explains how to install the MFL-Pro Suite software and multifunction drivers for Windows Vista®/Windows® 7 and other information about Windows Vista®/Windows® 7. Before installing the driver and software, please follow the steps in **STEP1 Setting Up the Machine** in the Quick Setup Guide. After you complete the initial setup, follow the steps in this guide for installing the MFL-Pro Suite and drivers. You can also find other information about the machine in the Quick Setup Guide.

See the Quick Setup Guide first.

Supplied CD-ROM for Windows Vista®/Windows® 7

You can find the information listed below on the Windows Vista®/Windows® 7 CD-ROM. The menu may differ depending on your operating systems.

**Install MFL-Pro Suite**
You can install the MFL-Pro Suite software and multifunction drivers.

**Install Other Drivers or Utilities**
You can install additional MFL-Pro Suite software utilities, install without ScanSoft™ PaperPort™ 11SE with OCR by NUANCE™, or install the printer driver only.

**User's Guide**
View the Software User’s Guide and Network User’s Guide (For machines with the optional NC-9100h built-in network interface). The Software User’s Guide includes instructions for features available when connected to a computer. (eg. Printing and scanning details)

**On-Line Registration**
Register your machine from the Brother Product Registration page.

**Brother Support**
View contact information for Brother Customer Service and how to find a Brother Authorized Service Center. View our web site for original/genuine Brother supplies at [http://www.brother.com/original/](http://www.brother.com/original/) for Supplies Information.

**Repair MFL-Pro Suite (USB only)**
If an error occurred during the installation of the MFL-Pro Suite, use this selection to automatically repair and re-install the MFL-Pro Suite.
Follow the instructions on this page for the interface you are going to use. For the latest drivers, documentation, and to find the best solution for your problem, access the Brother Solutions Center directly from the CD-ROM / Driver or visit http://solutions.brother.com/.

Windows®

For USB Interface Users .................................................................................................. 4

For Optional NC-9100h Network Interface Users....................................................... 7
For USB Interface Users

**Improper Setup**
DO NOT connect the interface cable. Connecting the interface cable is done when installing the driver.

---

**Important**
Make sure that you have finished the instructions from STEP 1 Setting Up the Machine in the Quick Setup Guide.

**Note**
*Please close any applications running before installing MFL-Pro Suite.*

---

**Installing the driver and connecting the machine to your computer**

1. Unplug the machine from the AC outlet and from your computer, if you already connected an interface cable.

2. Turn on your computer. (You must be logged on with Administrator rights.)

3. Put the supplied CD-ROM for Windows Vista®/Windows® 7 into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

4. The CD-ROM main menu will appear. Click Install MFL-Pro Suite.

   ![Image](start.exe.png)

   If this window does not appear, use Windows® Explorer to run the `start.exe` program from the root folder of the Brother CD-ROM.

   **Note**
   *For Windows Vista® users: If the User Account Control screen appears, click Allow.*

   ![Image](UAC_Vista.png)

   **For Windows® 7 users:**
   *If the User Account Control screen appears, click Yes.*

   ![Image](UAC_W7.png)

5. After reading and accepting the ScanSoft™ PaperPort™ 11SE License Agreement, click Yes.
6 The installation of ScanSoft™ PaperPort™ 11SE will automatically start and is followed by the installation of MFL-Pro Suite.

7 When the Brother MFL-Pro Suite Software License Agreement window appears, click Yes if you agree to the Software License Agreement.

8 Choose Local Connection (USB), and then click Next. The installation continues.

9 When this screen appears, connect the USB interface cable to your PC, and then connect it to the machine.

10 Plug the AC power cord into an AC outlet. Turn the power switch on.

The installation of the Brother drivers will automatically start. The installation screens appear one after another, please wait for a while.

Improper Setup
DO NOT try to cancel any of the screens during this installation.

11 When the On-Line Registration screen is displayed, make your selection and follow the on-screen instructions. Once you have completed the registration process, close your web browser to return to this window. Then click Next.
12 Click Finish to restart your computer. After restarting the computer, you must be logged on with Administrator rights.

The MFL-Pro Suite has been installed completely.

Note

MFL-Pro Suite includes the Printer Driver, Scanner Driver, Brother ControlCenter3 and ScanSoft™ PaperPort™ 11SE. ScanSoft™ PaperPort™ 11SE is a document management application for scanning and viewing documents.
For Optional NC-9100h Network Interface Users

Important

Make sure that you have finished the instructions from STEP 1 Setting Up the Machine in the Quick Setup Guide.

Note

Please close any applications running before installing MFL-Pro Suite.

1 Make sure that the NC-9100h (Network Print/Fax Server) is installed into the machine. (See “Optional accessories” in Chapter 13 of the User’s Guide.)

2 Turn off and unplug the machine from the AC outlet.

3 Connect the network interface cable to the machine, and then connect it to your network.

4 Plug the AC power cord into an AC outlet. Turn the power switch on.

5 Turn on your computer. (You must be logged on with Administrator rights.) Close any applications running before installing the MFL-Pro Suite.

Note

Before installation, if you are using personal firewall software, disable it. After the installation, restart your personal firewall software.

6 Put the supplied CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

7 The CD-ROM main menu will appear. Click Install MFL-Pro Suite.

If this window does not appear, use Windows® Explorer to run the start.exe program from the root folder of the Brother CD-ROM.

Note

For Windows Vista® users: When the User Account Control screen appears, click Allow.

For Windows® 7 users: If the User Account Control screen appears, click Yes.
After reading and accepting the ScanSoft™ PaperPort™ 11SE License Agreement, click Yes.

When the Brother MFL-Pro Suite Software License Agreement window appears, click Yes if you agree to the Software License Agreement.

Choose Network Connection, and then click Next.

If the machine is configured for your network, choose the machine from the list, and then click Next. This window will not appear if there is only one machine connected on the network, it will be chosen automatically.

If your machine shows APIPA in the IP Address field, click Configure IP Address and enter an IP address for your machine that is suitable for your network.

Click OK.

The Configure IP Address window will appear. Enter an IP address for your machine that is suitable for your network by following the on-screen instructions.

The installation of the Brother drivers will automatically start. The installation screens appear one after another. Please wait, it will take a few seconds for all the screens to appear.

DO NOT try to cancel any of the screens during this installation.

When this screen appears, click the check box and click Install to complete the installation properly.

When the Brother and ScanSoft On-Line Registration screen is displayed, make your selection and follow the on-screen instructions. Once you have completed the registration process, close your web browser to return to this window. Then click Next.
Click **Finish** to restart your computer. After restarting the computer, you must be logged on with Administrator rights.

The MFL-Pro Suite has been installed completely.

**Note**

MFL-Pro Suite includes the Printer Driver, Scanner Driver, Brother ControlCenter3 and ScanSoft™ PaperPort™ 11SE. ScanSoft™ PaperPort™ 11SE is a document management application for scanning and viewing documents.
BRAdmin Light utility

BRAdmin Light is a utility for initial setup of Brother network connected devices. It can also search for Brother products on your network, view the status and configure basic network settings, such as IP address. For more information on BRAdmin Light, visit us at http://solutions.brother.com/.

![Image](image1.png)

**Note**

If you require more advanced printer management, use the latest Brother BRAdmin Professional utility version that is available as a download from http://solutions.brother.com/.

## Installing the BRAdmin Light configuration utility

**Note**

The default password for the print server is ‘access’. You can use BRAdmin Light to change this password.

1. Click **Install Other Drivers or Utilities** on the menu screen.

![Image](image2.png)

2. Click **BRAdmin Light** and follow the on-screen instructions.

![Image](image3.png)

3. For Windows Vista® users:
   When the **User Account Control** screen appears, click **Allow**.

![Image](image4.png)

For Windows® 7 users:
When the **User Account Control** screen appears, click **Yes**.

![Image](image5.png)

## Setting your IP address, Subnet Mask and Gateway using BRAdmin Light

**Note**

If you have a DHCP/BOOTP/RARP server in your network, you don’t have to do the following operation. The machine will automatically obtain its IP address.

1. Start BRAdmin Light. It will search for new devices automatically.

![Image](image6.png)

2. Double-click the unconfigured device.

![Image](image7.png)

3. Choose **STATIC** for the **Boot Method**. Enter the **IP Address**, **Subnet Mask** and **Gateway**, and then click **OK**.

![Image](image8.png)

4. The address information will be saved to the machine.

![Image](image9.png)
ScanSoft™ PaperPort™ 11SE for Brother is a document management application. You can use PaperPort™ 11SE to view scanned documents. PaperPort™ 11SE has a sophisticated, yet easy-to-use filing system that will help you organize your graphics and text documents. It allows you to mix or ‘stack’ documents of different formats for printing, faxing or filing.

When you install MFL-Pro Suite, ScanSoft™ PaperPort™ 11SE for Brother is installed automatically. You can access ScanSoft™ PaperPort™ 11SE through the ScanSoft™ PaperPort™ 11SE program group located in Start/All Programs/ScanSoft PaperPort 11SE on your PC.
