  - ✦ **Intuitive Color Management** for easy design customization
- ...and many more

 *Entrepreneur 6-Plus*

# 6-Needle Versatility

## 6 Needles with Customizable Settings

Each needle offers customizable settings for speed, color lock, and now the disengagement of the needle threader – useful when using a thin needle!

## 6-Needle Automatic Needle Threading

Makes threading simple! Thread each needle in seconds – with just the touch of a button! This can be done without a design on the screen for added efficiency.

4 built-in  
**LED LIGHTS**

## Bright Customizable Lighting

Illuminate your work with 4 built-in LED lights to see colors brightly and vividly with virtually no shadows! Customize the light brightness between 5 settings, including 'off' mode to find your ideal level.

# More Speed and Minimal Noise Equals Greater Productivity

## High-Speed Acceleration

Increase your productivity with industrial-level acceleration in a home embroidery machine!

**Reach up to 1,000 stitches per minute in seven seconds.** This improved acceleration is not only on initial startup, but at thread trims, too.

## Fast and Adjustable Embroidery

**Embroider at up to 1,000 stitches per minute.** Speed can be reduced to 400 SPM for flats, as well as for the optional cap and cylinder frame. This provides improved results, especially with specialty threads.

## Minimal Noise and Disruption

The Entrepreneur 6-Plus is engineered to be used at home, so **creative time can be anytime with minimal noise.**

# Large 10.1" Built-in High-Definition LCD Display

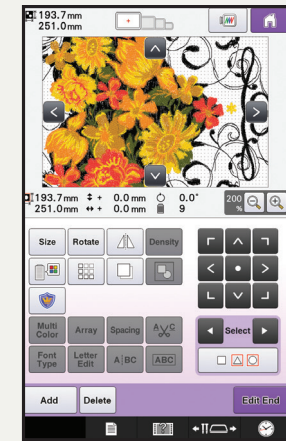

## Easy-to-Use Interface

Large defined icons, thumbnail size selector, color navigation, scrolling menu, swipe capability, and the ability to **view your design properties in 'Preview' mode.**

## Expandable Library of Built-in Tutorials

HD tutorials make learning easy! **View 16 tutorial videos** directly on the high-definition LCD display—with everything from basic operations to embroidery functions.

## Adjustment and Zoom Features

View your creations in crisp, vivid color and watch them become larger than life with the **new zoom function of up 200%.** Easily adjust your design by rotating in .01 degree, 1 degree, 10 degree or 90 degree increments.

# Large Embroidery Area for all of Your Projects

## 8" x 12" Embroidery Area

Includes four embroidery frames: 8" x 12", 5" x 7", 4" x 4" and 1.5" x 2", making it easy to go pro!

## Droplight Embroidery Positioning Marker

Use the embroidery foot with LED pointer to **easily see your needle drop position**. Check the embroidery field easily with the trial key and the LED pointer. Also helpful while using the stitch forward and backward keys.

## Cylinder Arm

The cylinder arm makes it **easy to embroider items** such as caps, tote bags, sleeves and trouser legs.

# Design & Editing Features Made Simple

## On-Screen Letter Editing

Input multiple lines of text or lettering and insert graphic elements, all with the capability to edit. Rearrange words or phrases, combine selected words, change the style and size of individual letters and even change the font style of a whole line. Easily align text *Left*, *Center* and *Right*. **Perfect for embroidering multiple line poems, phrases, and wedding announcements.**

## Color Shuffling 2 Function for Even More Color Possibilities

Love a certain color scheme? Not sure how to combine colors? Use the pin graphic function in Random and Gradient modes to **ensure your favorite colors are included in your shuffle.**

## Stitch Simulator

**See your design on-screen** before it sews out with the stitch simulator.

## On-Screen Auto Density Adjustment of Original Design

When enlarging designs, the stitch count is automatically recalculated to 100%, so your resized design will look just like the original. **Designs can be adjusted from 60% to 200% of the original.**

## Easy Appliqué Feature

Instant pattern outline for easily creating appliqué. **Create multiple appliqués in one hoop!**

## Color Grouping

Save time with this feature that **allows multiple regions to be selected** at a time for editing color.

## Intuitive Color Management

Customize designs even further with the **ability to select sections of an embroidery design that you wish to skip before you start stitching.**

Easy Appliqué Feature

# Timesaving Techniques that are So Easy to Use

## Group and Ungroup

A **great feature when working on logo projects**. Easily group letters to move all at once, combine designs and edit them as one, or separate design elements and edit pieces individually.

## Automatic Color Changing and Thread Trimmer

The machine automatically preprograms the correct thread color sequence for the entire design.

The upper and lower automatic thread trimmers mean no time-consuming trimming after the embroidery is complete.

## Stitch with Confidence Using the Basting Function

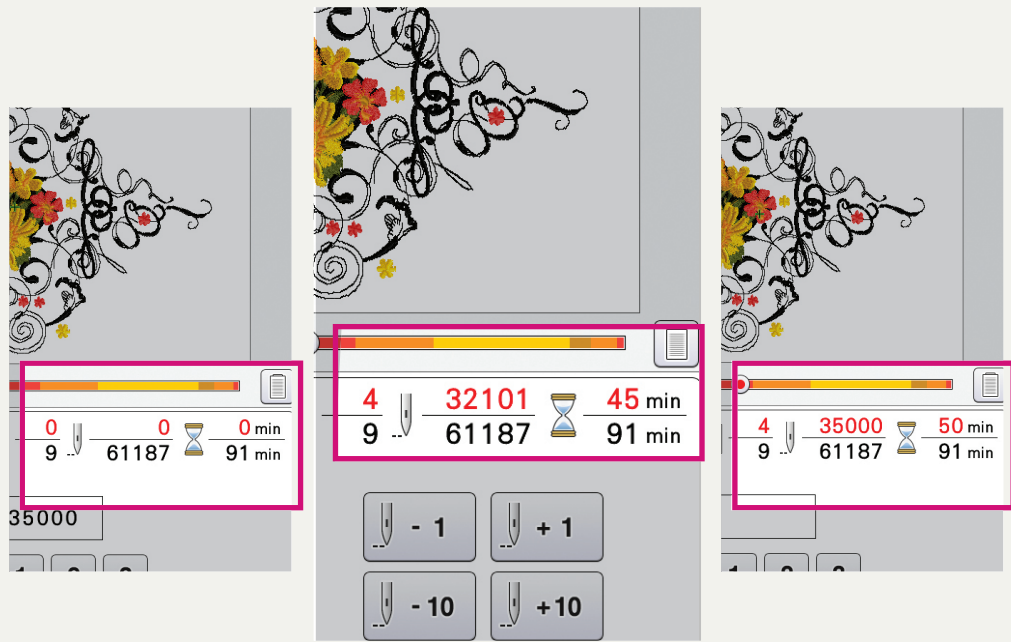

Apply a basting stitch outline to the perimeter of any design to **hold the fabric to the stabilizer**.

Great for larger fabrics and hard-to-hoop items.

## Auto Resume

The PR670E will **automatically resume the embroidery design** at the exact stitch when the machine stopped or lost power.

## Smart Stitch Management

Wondering how long a certain color will take to finish?

**Check the progress bar to see its status.** The tab indicator indicates the stitching sequence. Or, key in the stitch number to go forward or backward by any number of stitches.

## Color Sort

When combining designs, you can **easily cut down on thread changes** by having the machine efficiently sort the stitch order by color, which can reduce color changes and needle bar movement.

# Modern Built-in Designs and Fonts

## Wide Range of Built-in Embroidery Designs

Stitch out the built-in designs as they are, or express your creativity with the design editing features. **Personalize your creations in just about any style** with a full range of built-in fonts. Customize fonts by adjusting the spacing, or change the thread density to improve the look of stitching.
