Model
LX-570

NO ODOR!
NO MESS!

It's a
STICKER
Maker

It's a
MAGNET
Maker

It's a
LAMINATOR

The more you use it, the more uses you'll find for it!

Backster
Multi finisher

Use it Anywhere, Anytime for Anything!

The **Backster™ Multi-finisher** allows you to apply an adhesive, laminate or magnetic backing onto virtually anything! Just drop one of the 5 different cartridges into the unit and let your imagination go wild!

Apply one of the five finishes to anything from a leaf to a favorite photo. The applications are endless! Its uniqueness is in the way that it applies the finish. Each cartridge contains a special film. By turning your item through the unit, the special finish is applied to your item. It even works on intricate or uniquely shaped items.

Model LX-570

**Finishes items
up to 5" wide
and any length
up to banner size!**

Cartridge-Based
System

Perfect For Finishing Any Project!

Imagine the possibilities! Put a permanent adhesive or repositionable adhesive onto the back of virtually anything, with or without laminating the front, to create an instant sticker or applique. Or, use the laminate or magnetic cartridges to preserve and protect important items for your home, office or classroom.

This innovative, no heat, no pouch, no battery and no electricity system makes Backster™ safe to use anywhere, anytime and by anyone. It can handle items up to 5" wide and any length up to banner size, making it ideal for crafts, photo albums, signs, recipe cards and many other family or business projects.

At Home Craft items, school assignments, community projects – you'll love completing these with Backster™.

Laminating signs to protect them from dust, dirt and weather...labeling school items, book reports, art class assignments...customizing gifts, cards, stationery, scrapbooks, party decorations. The projects for using Backster™ in your home are endless.

At the Office For organizing your office space or creating materials for customers and clients, Backster™ is all business. Create your own sticky-backed notes, protect signage, turn business cards into luggage tags or magnets. Label your reports, presentations, boxes, file folders, computer disks...everything looks more professional and personalized when you take the time to finish it with Backster™.

Preserves & Protects*

Laminates both sides of an item in a single pass to protect it from everyday wear and tear. Great for ink jet output and digital photos to keep them color fast.

Makes Magnets*

Turn that photo into a refrigerator magnet or make your own magnetic promotional cards. Backster applies a magnetic back to items and laminates the front. Perfect for gift items, promotional give-aways, magnetic business cards or signage for metal doors.

Finishes Photos*

You can finish your photos in any number of ways. Turn your favorite memories into an innovative sticker or magnetic decal.

Laminate them to protect them from everyday handling. Apply an acid free permanent or repositionable adhesive to the back of your photographs for sticking into scrapbooks, specialty frames, or onto craft items. The acid free, PAT (photo activity test) approved adhesives won't harm your photos, regular or digital, and laminating them will give them added protection. Backster finishes all sizes of APS photos, including panoramic.

So Simple and Safe, anyone can use it!

At your side.
