# DOCUMENT CAPTURE SOLUTIONS TO TRANSFORM YOUR BUSINESS

PROFESSIONAL DESKTOP SCANNERS

## Capture Solutions that Help Improve Business Workflows

In today's fast-paced and increasingly digital business environment, it's all about the information; capturing, storing, protecting, and gaining quick access to it when it's needed. While organizations in healthcare, legal and education were among the first to see the value in digitizing workflows, many businesses in various other industries are now also embracing capture technology. Electronic records and documents are becoming standard due to their ease of use and efficiency, resulting in a greater need for capture devices that can keep up with the digitally driven demands of businesses across multiple industries.

The Brother Workhorse Series scanners – award-winning, standalone capture solutions designed specifically for organizations with mid to large scanning volumes – can provide the flexibility to meet these evolving needs. Whether your business requires a back-end capture solution, or more complex devices with networking, cloud and file sharing capabilities, Brother offers the right solutions for your specific workflow demands. All while ensuring the security of your digitized documents and adding value to your business.

### Document Capture Benefits

- Simplifies document handling by reducing clutter and making documents easier to find
- Facilitates compliance requirements by controlling access to data
- Makes data sharing more accessible throughout the enterprise no matter where staff are located
- Enables multiple users to access the same documents at the same time
- Frees up vital and costly floor space by digitizing paper documents
- Protects confidentiality through the enhanced security protocols that only digitized documents can provide

# Raising the Bar with Feature-rich Document Capture

Businesses with demanding document capture requirements need to be confident the products they have selected meet the highest levels of performance, with unsurpassed accuracy and security, while still offering a low cost of ownership. The Brother Workhorse Series scanners do just that, with features and functionality your business can rely on:

## Versatility

Handles a wide variety of media types, weights and sizes.

Touchscreen interface<sup>7</sup> or one-touch keys for significant time savings.  
Scan-to locations include:

- E-mail, OCR, File, E-mail Server<sup>2</sup>
- FTP, SSH Server (SFTP), SharePoint
- Cloud applications<sup>1</sup> (OneNote, OneDrive, Google Drive™, Evernote®, Evernote® Business, and Dropbox)
- Network Folder
- USB Host Drive
- Mobile devices via Brother iPrint&Scan<sup>3</sup>

Seamlessly connect to your document network

- Windows, Mac® and Linux compatible
- TWAIN, WIA, ICA, SANE, and ISIS drivers included

## Fast, High-Precision Scanning

Robust image optimization capabilities including:

- Kofax VRS® certified
- Multistream<sup>6</sup>
- Dynamic threshold<sup>6</sup>
- Edge cleanup
- Hole punch removal
- Despeckle
- Color matching
- And more!

Generous sheet capacity, robust daily duty cycles and simplex/duplex scanning in a single pass

Rapid image processing via a SuperSpeed USB 3.0 interface (select models)

OCR capabilities convert captured pages into editable formats

Batch barcoding simplifies file sorting and searching

Ultrasonic multifeed detection<sup>6</sup>

Reversing rollers ensure each page is properly scanned every time.

1 Color and monochrome scan speed with all advanced features turned off, LTR at 300dpi.

2 Requires mail server support.

3 Requires Brother iPrint&Scan app and connection to a wireless network.

4 Requires Internet connection and an account with desired service.

5 Certified with Kofax VRS® versions Elite 5.1 and Express 3.2. Windows only. Additional purchase required.

6 PDS models only.

7 ADS-3600W only.

^ Requires 3rd party purchase.

## Security

Advanced security features to help safeguard sensitive documents and securely connect to the device and network, including:

- Active Directory Lookup and Authentication<sup>7</sup>
- Scan-to Destination permissions management
- LDAP Support<sup>7</sup>
- Secure PDF
- Secure Function Lock<sup>7</sup>
- Email Encryption via Protected Trust<sup>8</sup>
- 802.1X and HTTPS network security<sup>7</sup>

For highly secure or compliance-specific environments, Brother's Special Solutions Team can help modify products to meet custom security requests.

## Award Winning Performance

Brother has received numerous Buyer's Laboratory (BLI) honors for its products and offerings. BLI named the Brother ImageCenter ADS-3600W as the Summer 2016 Pick Award winner for Outstanding A4 Network Scanner. Additionally, Brother Web Connect was named its Winter 2016 Pick Award winner as the Outstanding Scan-to-Cloud Solution.

## Meeting Your Capture Needs Across Workgroups and Industries

The robust capabilities of the Brother Workhorse Series scanners make them ideal for any document intensive environment. Businesses across any number of industries, from single office environments to multiple location enterprises, will appreciate the ability to quickly and cost-effectively enable information sharing, improve automation processes, assist in meeting compliance requirements and make it simpler than ever to capture, archive and retrieve important data.

### Corporate & Government

#### Challenges

- Confidentiality and security to help meet regulatory demands
- Budget and sustainability
- Bring Your Own Device (BYOD) initiatives

#### Brother Solutions

- High speed scanners for large daily duty cycles and multi-page, continuous scanning
- Advanced features ensure captured documents are accurate
- Batch barcode support simplifies file sorting and searching

#### Applications

- Presentations, reports, client communications, invoices, financial data
- HR / Personnel files, DMV records, court / case files, contracts

#### Environments

- Corporate office, remote locations, executive offices
- Administration office
- Courtroom
- Federal, state and local offices

### Healthcare

#### Challenges

- Compliance initiatives for Health Insurance Portability and Accountability Act (HIPAA)
- Electronic Health Record (EHR) adoption

#### Brother Solutions

- Scan to destination restrictions and enhanced security protocols for seamless and secure transmission
- Advanced features include Secure Function Lock, email address lookup and authentication via Active Directory

#### Applications

- Patient records, ID cards, consent forms, billing / claims processing, pathology reports, lab results, requisitions, prescriptions, medical orders

#### Environments

- Nursing stations, admissions, medical lab

#### Compatibility

- Epic
- Meditech
- Cerner (ADS-2400N / ADS-3600W)

### Education

#### Challenges

- Compliance initiatives for Federal Educational Rights and Privacy Act (FERPA)
- Budget

#### Brother Solutions

- Document capture that meets high security standards
- Transform tests into a wide variety of assessment software applications

#### Applications

- Test assessments, parental communications, permission slips, staff / student records, student / teacher collaboration

#### Environments

- Classroom, administration office, student center, library

#### Compatibility

- Scantron
- Eduphoria!
- Edusoft

### Retail & Hospitality

#### Challenges

- Compliance initiatives for the Payment Card Industry Data Security Standard (PCI Compliance)
- Omnichannel retailing

#### Brother Solutions

- Send digitized information to secure cloud storage for access from various locations
- Programmable shortcuts simplify the user experience

#### Applications

- General reports, small signage, planograms, inbound freight, boarding passes / passports

#### Environments

- Back office, in-aisle, warehouse, corporate, check-in, business center

## Customizable Scanner Solutions

Brother's value services and solutions allow for customizations on products based on your business' specific needs. These solutions and services include:

### Brother Special Solutions Team (SST)

The Brother Special Solutions Team (SST) enables Brother products to be modified to meet special requests. This approach involves a collaborative process with our field service engineers and business analysts.

We have supported a range of customers in healthcare, financial services, retail, education and government.

In each of these engagements, the SST team will work with you to define, test and deliver an out-of-box solution that satisfies your unique needs.

## Custom User Interfaces

Modifications can be made to the standard user interface on select Brother products to meet a variety of customer needs, allowing for a fully customized experience and delivering efficiency throughout your organization.

### The Brother Solutions Interface (BSI)

The Brother Solutions Interface (BSI) is a web-based software development platform that enables developers to build customized solutions for select Brother devices. Developers can easily create customized solutions for a company's network environment and integrate with existing workflows. BSI may be used to control access to Brother devices. And because it spans multiple devices, it can be easily deployed on current and future laser MFPs, printers, scanners.

## The Brother Workhorse Series

The Brother Workhorse Series deliver some of the strongest business-focused features in the industry to address critical document imaging challenges. These powerful devices can help your business succeed by optimizing workflows, enhancing document security, increasing productivity, and improving your bottom line. Durable, secure and feature-rich, they represent award-winning performance from a company trusted globally for excellent customer value and dependability.
