Value Beyond the Box

Meet the demanding needs of the modern office with Brother hardware, software, and service-based solutions, designed to give you a competitive advantage. Visit **brother-usa.com/solutions** to learn more.

Value Services

From enhanced collaboration to increased document security, Brother Value Services can help your mid to large-sized organization streamline processes, reduce operational and device running costs, and create efficiencies required for long-term success.

Value Services include:

Secure Print Advanced
Secure print job release solution without the high overhead cost.

Custom User Interface
Modified user interface for business workflows and security policy.

Special Solutions Team
Customized solutions for unique configuration and deployment requirements.

Tungsten ControlSuite (formerly Kofax)
Secure, govern, and manage every aspect of information distribution.

PaperCut MF
Monitor and control copying, printing, and faxing.

SecureRx by TroyRx
Print CMS-compliant prescriptions directly onto plain paper.

Security Services

To help protect against print security threats and maintain compliance, Brother devices are equipped with robust Triple Layer Security features.

DEVICE
Restrict and limit access to the device at the individual, group, and activity level.

DOCUMENT
Protect documents in transit to and from print devices.

NETWORK
Safeguard against outside threats using higher level security protocols.

VPP
Value Print Program

Provides discounts on Genuine Brother toner, ink, and drums for customers who commit to purchase and install select Brother printers and all-in-ones, along with the requisite Brother Genuine Supplies. Includes a limited warranty extension to cover three full years of warranty coverage.

LOW COST PER PAGE (CPP)
With discounts on Brother Genuine Supplies, the Value Print Program helps to drive CPP among the lowest in the industry.

DEVICE UPTIME
Device unification with Brother branded equipment allows for readily available replacement parts. Downtime is virtually eliminated, increasing employee productivity.

CUSTOMER NETWORK SECURITY AND INTEGRITY
With VPP there is no requirement to load third-party software on a network, reducing the need for on-site visits.

brother | for business

Brother Assessment Services

Brother Assessment Services can help customers optimize their print and imaging environment. From predictive analytics to full, on-site infrastructure optimization assessments, our team of experts help customers develop strategies to increase productivity, lower costs, increase security, and reduce their environmental impact.
Print Cost Predictive Analysis
Snapshot of a print environment to generate a fleet status and total cost of ownership report.

Infrastructure Optimization Assessment
Audit of select business locations, mapping out devices in a floor plan, and recommending a cost-effective solution.

1 Based on one-sided printing. Change from default setting required.

2 Maximum capacity based on using 20 lb. paper.

3 Approximate toner cartridge yields in accordance with ISO/IEC 19798 (letter/A4).

4 The recommended range of monthly printed pages to achieve the best possible performance and printer life. Printers are intended to handle occasional usage beyond this range with little or no effect. Consistently printing above the recommended print volume, however, may adversely affect the print quality or life of the machine. It is always best to choose a printer with an appropriate recommended print volume to allow for any anticipated increase in printing needs.

5 Color and monochrome scan speeds in accordance with ISO/IEC 17991 with all advanced features turned off, using letter-sized paper at 200/300dpi.

6 Approximate yield based on 3 pages per job (letter/A4 single-sided pages). The number of pages may be affected by a variety of factors including but not limited to media type and media size.

7 Approximately 50,000 pages based on 3 pages per job and 30,000 pages based on 1 page per job and (letter/ A4 single-sided pages). The number of pages may be affected by a variety of factors including but not limited to media type and media size.

8 Approximate toner cartridge yields in accordance with ISO/IEC 19752 (letter/A4).

9 Approximately 75,000 pages based on 3 pages per job and 45,000 pages based on 1 page per job (letter/A4 simplex pages). The number of pages may be affected by a variety of factors including but not limited to media type and media size.

10 ISO print speed based on ISO/IEC 24734 (after first set of ISO test pages). For more details, please visit www.brother-usa.com/printspeed.

11 Actual yield of initial cartridges will be approximately 89% of replacement LC406XL black and 39% of replacement LC406XL Color Series, due to ink system initialization. Approximate page yields stated in accordance with ISO/IEC 24711. For more page yield information, see www.brother.com/pageyield.

12 Approximate page yield stated in accordance with ISO/IEC 24711. For additional page yield information, see www.brother.com/pageyield.

13 BR-Script3 is PostScript®3™ compatible.

14 Requires connection to a wireless network.

15 Approximately 20,000 pages based on 1 page per job and 30,000 pages based on 3 pages per job (letter/ A4 single-sided pages). The number of pages may be affected due to a variety of factors including but not limited to media type and media size.

16 Drum yield is approximate and may vary by type of use.

17 Color and monochrome scan speeds with letter-sized paper at 200/300dpi. Actual processing speeds may vary with data transmission and software processing times.

18 Additional download required. Software application compatibility may vary based on operating system. App availability may vary based on country.

19 Maximum number of scanned pages per day can be used to compare designed durability between like Brother products. For maximum product life, it is best to choose a scanner with a daily duty cycle that exceeds your requirements.

20 Based on using standard address labels, text only, at 300 x 300 dpi.

21 Based on performance tests using Brother certified media. Actual results may vary by application.

22 Drop protection up to 6ft, measured in a controlled test environment, [without/with] IP54 protective case.
