

SYNERGIZING SUCCESS

ADVANCED PRINTING SOLUTIONS & GEARMOTOR APPLICATIONS
FOR MANUFACTURING OPERATIONS MANAGEMENT

With Brother “at your side” maximize efficiency and minimize hassle. Streamline manufacturing operations with Brother industrial barcode labeling printers and cutting-edge gearmotors to support warehouse automation and elevate your workflow.

TITAN INDUSTRIAL STATIONARY & RUGGEDJET MOBILE PRINTERS

Experience the ultimate in barcode printing with Brother Titan Industrial Printers. Print clear, scannable barcodes from 8ips up to 14ips and print 203dpi or scale up to an impressive 600dpi.* Enjoy round-the-clock printing at exceptional speeds with refreshingly easy drop-in integrations, making Titan the perfect choice for an industrial operation.

Our compact, Rugged Jet Mobile Warehouse Printers are highly versatile, catering for 1-inch to 4-inch warehouse labels and receipts. Rugged Jet is designed for industrial use, has passed multiple drop tests, and will continue to perform for you “at your side.”

APPLICATIONS:

- Barcode Labels
- Raw Materials & Finished Goods Labeling
- Parts & Product Labels
- Packing Labels
- Secondary Packing Labels
- Storage Labels
- Pallet Labels
- Work-in-Process Labels
- Inventory Management, Tracking, & Traceability

ON-DEMAND SAFETY SIGNAGE PRINTING SOLUTIONS

Create, print, and apply on-demand safety signage as you need anytime, anywhere. Help protect your workers and comply with the latest regulations – in just a few clicks. With on-demand safety labeling solutions from Brother Mobile Solutions, you get the printers, software, and supplies you need to create clear, durable safety signage. When and where you need it.

APPLICATIONS:

- Pipe Markers
- Lockout Tagout
- OSHA Signs
- Secondary GHS Labeling
- General Safety Labels
- 5S Signage
- Arc Flash Labels
- Facility Labels
- Barcodes

BROTHER GEARMOTOR FOR MATERIALS HANDLING

Premium Efficiency ie3 gearmotors provide cost effective, custom solutions for conveyors. Shop high-quality gearmotors that withstand most environments, operate at a wide range of speeds, and can help reduce energy costs.

BENEFITS:

- Compact Design for Greater Efficiency
- Outperforms Chain and Sprocket Drives
- Custom Configurations Available
- Environmentally Friendly – RoHS Compliant
- Backed by an Industry-leading 5-Year Warranty

BRUSHLESS DC & WAREHOUSE AUTOMATION

Brushless DC gearmotors offer the flexibility of custom solutions to power autonomous mobile robots (AMRs) and automated guided vehicles (AGVs). Brushless DC gearmotors provide quality and reliability to warehouse automation solutions.

BENEFITS:

- Low Downtime & Maintenance *due to less friction on the motor*
- Long Product Lifespan
- Smooth Operation
- Great Speed Control

*Based on performance tests using Brother certified media, actual results may vary by application. Features not available on every industrial printer model.
