

# Quick & Easy Headband

## MARISA PAWELKO

This fun custom headband project makes great use of the many built in stitch designs that come with the **Innov-is 990D Combination Sewing and Embroidery Machine!** Enjoy this fun project and be sure to continue tuning in to my journey into the world of home sewing and machine embroidery with Brother!

### SUPPLIES:

22" of 5/8" Grosgrain Ribbon in the Color of Your Choice, 4" of 3/8" Elastic in the Color of Your Choice, Thread in the Color of Your Choice, Hot Melt Glue, Scissors, Ruler, Brother Innov-is 990D Combination Sewing and Embroidery Machine with built in Disney Designs

Measure and cut 18" of ribbon and 4" of elastic.

Attach elastic to the ribbon with safety pins and try on for size.

3

Remove pins and stitch the length of the ribbon with your preferred decorative or satin stitch.

*\*Handy Hint: Use masking tape as a guide to keep the ribbon straight.\**

4

Using a simple straight stitch, sew the elastic ends to the ribbon ends with an overlap of approximately 1/2".

5

Use scissors to trim the excess ribbon at an angle.

6

Cut two short pieces of ribbon and use them to wrap the transition points of the ribbon and elastic, securing with hot glue and trimming as necessary.

7

Add optional embellishments as desired.

8

Go out and rock your custom headband in style!
