- Multicolor touch screen 5.6" programmed for multi languages;
- Energy saving by direct drive and no pressing unit;
- All standard pneumatic valves and cylinders by SMC;
- Lowest running cost. Freedom to outsource the standard consumable spare part in all market locally at the best price and delivery.**

PRODUCTIVITY

Complete cycle time:
10 seconds – regular pocket size

Average production:
115 pairs / 1 working hour
920 pairs / 8 working hours

TECHNICAL DATA

Min and Max pocket finished size:
from 115 x 100 mm to 250 x 245 mm with optional folding group.
Coin pocket 90 x 90 mm with optional retractable inner clamp
item code SIP.A.000587

Sewing head utilized:
Brother model BAS-342 H serie, NEXIO Technology, single needle lock stitch, direct drive

Max sewing speed:
2.800 rpm
up to the stitch length of 3.5 mm

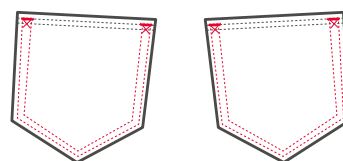

Power supply and air consumption:
220 Volt, mono-phase 50/60 Hz
1.0 Kw
8 liters/cycle at a pressure of 5.5 bar

Size and weight of the workstation:
205 x 165 x 140 cm – 450 Kg

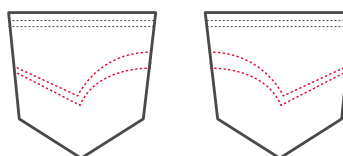

OPTIONS

- LED lights for back panel positioning
item code SIP.A.000642;
- Small pocket size folding group for pocket size below 160 x 150 mm
item code SIP.A.000492;
- PS-300B Sewing data programming software by Brother for creating, editing, setting and converting of sewing data;**
- IoT Software for FACTORY 4.0 network connectivity by Brother.**

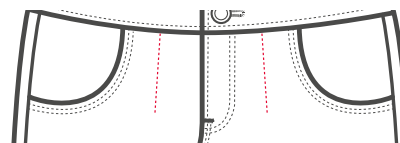

EXAMPLES OF USE

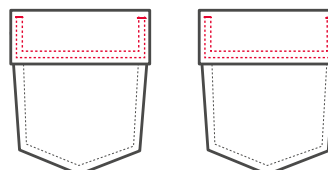

Pocket attaching

decorative stitch

Dart and pleats

Top stitch for flap
