Healthcare Technology Compatibility with Brother Devices

brother
at your side
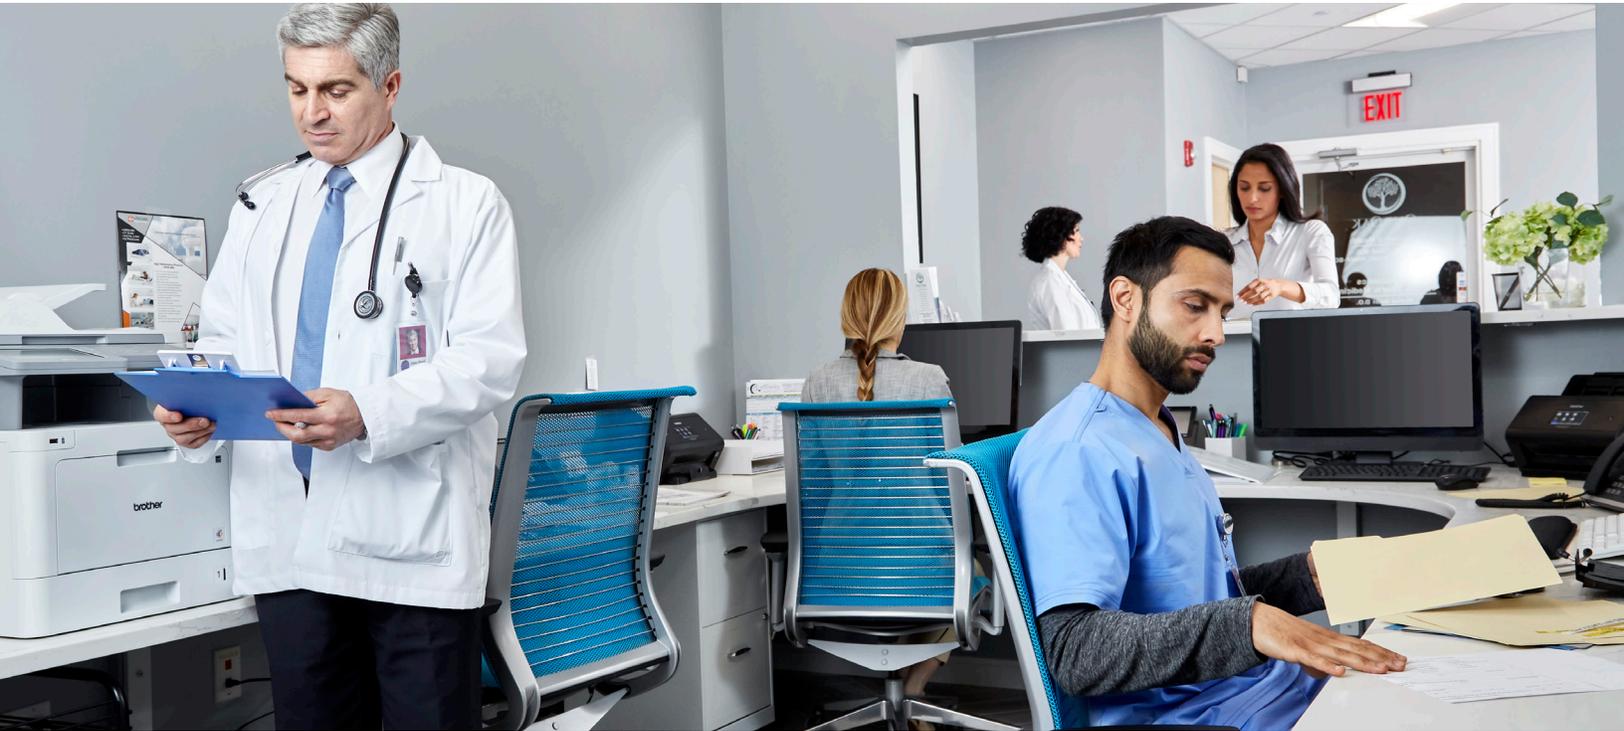

To demonstrate our commitment to providing healthcare facilities with high-quality, cost effective document management solutions that address the needs and challenges of the healthcare industry, Brother devices offer compatibility with a number of leading healthcare technology vendors. These include:

Electronic Medical Record (EMR) Applications

Cerner VALIDATED

Cerner: Recognized for innovation, Cerner offers solutions and services for healthcare organizations of every size. Together with their clients, Cerner is creating a future where the healthcare system works to improve the well-being of individuals and communities. Healthcare facilities using Cerner EHR systems can confidently choose any Cerner-validated Brother products to reliably print and scan from Cerner's system – seamlessly and securely.

Compatible Brother models include:

MONO LASER:			COLOR LASER:	SCANNERS:
HL-L5100DN	HL-L6400DW	MFC-L5800DW	HL-L8260CDW	ADS-2200
HL-L5200DW	HL-L6400DWG	MFC-L5900DW	HL-L8360CDW	ADS-2400N
HL-L5200DWT	HL-L6400DWT	MFC-L6700DW	HL-L8360CDWT	ADS-2700W
HL-L6200DW	DCP-L5500DN	MFC-L6750DW	HL-L9310CDW	ADS-2800W
HL-L6200DWT	DCP-L5600DN	MFC-L6800DW	MFC-L8610CDW	ADS-3000N
HL-L6250DW	DCP-L5650DN	MFC-L6900DW	MFC-L8900CDW	ADS-3600W
HL-L6300DW	MFC-L5700DW	MFC-L6900DWG	MFC-L9570CDW

Advanced Document Capture

EPHESOFT

Ephesoft: Using supervised machine learning and a focus on efficiency and reliability, Ephesoft delivers Smart Capture® technology on a private or public cloud platform that turns the world's unstructured content into actionable information. For more information, please visit: https://ephesoft.com/.

Brother devices supported include:	Discontinued models include:
ADS-2400N ADS-3600W	ADS-2500We

Epic

To learn more about Epic, please visit: www.epic.com.

In terms of Epic compatibility on Brother devices, many Brother products are equipped with a TWAIN compliant driver for scanning from applications like Epic.

KOFAX

Kofax: Kofax VRS (Virtual Rescan) is an application provided by Kofax which comes with advanced image processing, allowing for the enhanced quality of scanned images. It will automatically apply these settings to improve and clean scanned images.

Kofax VRS is capable of working with some non-certified or compatible scanners, but users may experience less than adequate image quality with a non-certified scanner as opposed to a certified scanner. In order for a non-certified scanner to work with Kofax VRS, it must support a TWAIN or ISIS driver.

Brother devices supported include:		Discontinued models include:
ADS-2400N	ADS-3000N	ADS-2100e
ADS-2800W	ADS-3600W	ADS-2500We
PDS-5000	PDS-5000F	

MEDITECH

MEDITECH: MEDITECH provides a comprehensive and integrated electronic health record (EHR) designed to help your organization increase patient safety, streamline processes, and improve patient safety and transitions of care.

In terms of MEDITECH compatibility on Brother devices, many Brother products are equipped with a TWAIN compliant driver for scanning from applications like MEDITECH.
