SOLUTIONS FOR **DENTAL PRACTICES**
FROM BROTHER

Brother is at your side with a variety of printing and scanning solutions to help meet the needs of dental offices. We will work with your office's IT staff to create customized workflows based on your unique requirements. We can develop custom printer and scanner drivers to seamlessly integrate with your dental practice's management software.

APPLICATIONS:

- **Registering** first-time patients' IDs and insurance cards

- **Scanning** patient information and dental records / files into Electronic Health Records (EHR) software

- **Printing** patient reminders, invoices, charts, and schedules

- **Organizing** file folders, patient records, and sample labeling

- **Security** features that help facilitate HIPAA compliance

RECOMMENDED PRODUCTS:

MFC-L9570CDW
