HL-L6400DWVS

On-Demand Ballot Printing and Marking Solution from Brother

Election Day ballots are critical to the success of every election. As ballot printing is a high volume, short turnaround time process, it is necessary to have confidence in the capacity, reliability, and security of ballot printing devices. Brother provides secure and cost-effective on-demand ballot printing and marking technology to help you create, produce, and deliver high-quality, accurate ballots.

Benefits:

- Print as many ballots as needed with edge-to-edge printing
- Up to 22" automatic duplex printing (with optional extended paper tray)
- Wi-Fi and NFC card have been physically removed to help ensure regulation compliance
- Compatible with Windows, Linux, and iOS

HL-L6400 DWVs

Brother Workhorse Series business laser printer

- Print up to 14" ballots from the standard paper tray.
- Print up to 22" via the multipurpose tray only.

Image shown with optional VST-6000 extended paper tray plus output extender.

This ballot printing and marking solution works in conjunction with select voting systems and software. www.brother.com I ©2022 Brother International Corporation

VST-6000

Optional extended paper tray plus output extender

• Print 17" up to 22" ballots; includes output extender.

Please contact us at brother-usa.com/business/ taa-compliant-printers for more information.

Working with you for a better environment

At Brother, our green initiative is simple. We strive to take responsibility, act respectfully and try to make a positive difference to help build a society where sustainable development can be achieved. We call this approach Brother Earth.

- Based on one-sided printing. Change from default setting required.
 From ready mode and standard tray.
 PostScript®3" compatible.
 Requires connection to a wireless network.
 Maximum capacity based on using 20 lb, paper.
 The recommended range of monthly printed pages to achieve the best possible performance and printer file. Printers are intended to handle occasional usage beyond this range with little or no effect.
 Consistently printing above the recommended print volume, however, may adversely affect the print quality or life of the machine. It is always best to choose a printer with an appropriate recommended print volume to allow for any anticipated increase in printing needs.
 Approximately 90,000 pages based on 5 pages per job and 30,000 pages based on 1 page per job and [letter/44]. Simplex pages]. The number of pages may be affected due to a variety of factors including but not limited to media type and media size.
