Designed For Versatility, Built For Reliability.

Since 2005, Brother has been known for making garment printers designed from the ground up with garment decorators in mind. We manufacture our own firmware, software and print heads. Coupled with our specially formulated inks and advanced features, the GT-3 printer provides a powerful tool for garment decorators to grow their business.

Warranty – Including Print Heads

GT-3 printers come with a 2 year limited warranty.[▲] For the first year, there is a bumper-to-bumper warranty that covers all of the print heads.

Upgradeable Design

The unique construction of the GT-3 Series allows you to expand at the rate of your business.

- a. GT-341 Printer - CMYK Only
(Printing on Light Garments)
- b. GT-361 Printer - CMYK + 2 White Print Heads
(Printing on Light & Dark Garments)
- c. GT-381 Printer - CMYK + 4 White Print Heads
(Production Speed on both Light and Dark Garments)

Child-Friendly Inks

Our GT-3 inks are CPSIA compliant[‡] certified, making them safe for printing on children's clothing and accessories.

Large Print Head-to-Substrate Gap

Our industrial print heads are positioned further away from the substrate, allowing for printing over bulky items, including seams, zippers, pockets and other soft goods.

Images for illustrative purposes only. ▲Applies to machines purchased after 1/1/14. After 90 days, customer responsible for travel related to parts replacement. See limited warranty for details. For warranty, contact your Brother Sales Representative or go to www.BrotherDTG.com. #Manufactured in compliance with the following 2008 CPSIA Act requirements. 16 CFR, Part 1303, Lead in Paint (<90 ppm lead); CPSIA 2008, Section 108, Phthalates (<1000 ppm DBP, BBP, DEHP, DnOP, DINP, DIDP). †Requires Brother™ oversized platen for operation (additional purchase required). CMYK + White has maximum print area of up to 16" x 17". *Additional purchase required.

Interchangeable Platens

GT-3 printers are equipped with an enlarged up to 16" x 18" print area.† Compatible with baby, youth, oversized, sleeve and a variety of other platens* for printing on caps, hoodies, coasters and other soft goods and promotional items.

Oversized Platen

Print Quality

Our acclaimed industrial print heads have been redesigned to print at up to 1200 dpi, resulting in a crisp, clear image. Select the fast print mode (600 dpi) for logos and lettering, or the fine print mode (1200 dpi) for photo printing.

USB/LAN Connectivity

Enjoy convenient USB connectivity or transfer designs via USB drive (not included). For even faster download speeds, connect the computer via LAN/Ethernet connection.

Certified Washability

Our printers, when used properly with genuine Brother GT-3 inks, provide a high washing colorfast AATCC rating of 4.

One Pass Printing

Using the higher viscosity GT inks, the GT-3 series allows for both the white underbase and CMYK inks to be printed in one pass, allowing for better registration and increase in productivity.

More than just tees... expand your profit potential.

The versatility of the GT-3 allows you to print on more products: hoodies, canvas bags, stone coasters, towels, even shoes. And more product offerings can equal higher profits.

SPECS

SPECIFICATIONS

Printing Method	Direct Inkjet Garment Printer
Machine Size	54" x 41" x 26"
Machine Weight	245 lbs.
Max. Printing Area	Standard 14" x 16" (platen included); Maximum 16" x 18" (with optional platen) [†]
Ink Type	Water based pigment ink
Ink Color	CMYK (GT-341); CMYK + White (GT-361/GT-381)
Ink Head Type	On demand piezo head
Number of Ink Heads	4 (GT-341); 6 (GT-361); 8 (GT-381)
Ink Head Resolution	600 dpi x 600 dpi, 1200 dpi x 1200 dpi
Print Mode	Single or double for CMYK. Underbase and highlight for white (GT-361/GT-381)
Interfaces	High Speed USB 2.0; LAN/Ethernet [‡]
Environment	Printing Conditions: 64°F (18°C) to 86°F (30°C) Relative Humidity: 45-85% RH (no condensation)
Power Supply	AC 100V-240V, 50/60Hz ± 1Hz
Power Consumption	0.4A (average)
Ink Cure	Heat press machine can be used at 356°F (180°C) and 35 seconds duration. Conveyor oven is recommended to support high productivity of the printer at 320°F (160°C) and 3.5 minutes duration. Time and temperature may vary depending on which manufacturer's dryer is used.
Pre-Treatment	When printing with white ink, apply before printing, using a manual or automatic device and dry using a heat-press machine according to manufacturer's instruction.

SOFTWARE

PC Operating System Requirements	–Windows® 8 (32 bit/64 bit) [∞] , Windows® 7 (32 bit/64 bit), Windows Vista® (32 bit/64 bit), Latest Windows® XP (32 bit) –256MB RAM (512MB is recommended) –128MB of available hard disk space (256MB is recommended) –1GHz CPU (2GHz is recommended)
Mac Operating System Requirements	–Mac® OS X® 10.11 (El Capitan) –LAN (10-BASE-T and 100 BASE-TX) –MAC CPU: 2 GHZ or better –RAM: 1 GB or more –USB 2.0, USB Flash Memory –Display Resolution: XGA (1024 x 768) or higher
Recommended Applications	Adobe® Photoshop®, Adobe® Photoshop® Elements (for bitmap editing), Adobe® Illustrator®, CorelDraw® (for vector data editing), Corel® PaintShop™ Pro
