Unique crafts & Designs

Secure – Turn it off, unplug it and no software is left behind

PT-2430PC – for your business applications – in the office or in the field

The PT-2430PC is perfect for a busy office because virtually anyone can begin using it simply by connecting it to their PC. The intuitive built-in software enables users to produce labels for the majority of typical business needs. No software installation is required because the easy-to-use software is pre-loaded on the label maker. That means when you're done, simply turn it off and unplug. There's nothing left behind on your PC.

Creating labels is a snap. Use any of your PC's installed TrueType® fonts. Import graphics like logos and symbols from your PC. Make and print almost any label that you can imagine. For making more complex labels with a variety of symbols and industry-standard bar code symbologies, it also includes the full version of P-touch® Editor software on CD.

Using your PC's mouse and keyboard makes typing and designing your labels easier than ever. Plus, you can save your label designs to your desktop for future use.

PT-2430PC
Easy-to-Use PC-Connectable Label Maker with Auto Cutter

◆ Prints labels up to 1" wide

*All tapes are 26.2' long (8m), except fabric tape 9.8' long (3m), and Black on FL Orange tape 16' (5m). ▼ Claims that adhesive is "acid-free" and/or "photo-safe" are based upon: 1. Satisfactory test results obtained from Photographic Activity Tests per ISO 14523 and non-acidic pH Tests per TAPPI 509; 2. Certifications from material manufacturers; and 3. Atomic scans of adhesive following removal of backing paper. Data from independent tests performed at the Image Permanence Institute at Rochester Institute of Technology. ▲ Additional purchase required.
