# Wireless Network Quick Setup Guide

**EN**

| Connecting Your Machine to a Wireless Network | | Registering Your Machine with ScanNCutCanvas ("ScanNCut Online" Setting) | |
|---|---|---|---|
| Step **1** - **3** | **+** | Step **4** - **8** | ▶ |

This guide provides instructions so that you can use a wireless network to send data created in ScanNCutCanvas (http://ScanNCutCanvas.Brother.com/) to your cutting machine as well as save data that you have edited on your machine to ScanNCutCanvas. For details on the setup, refer to "Wireless Network Setup Guide".

## Connecting Your Machine to a Wireless Network

**1**

Turn on the ScanNCut machine and press [🔧].

**2**

Display page 6, select the "Network" icon and then enable WLAN.

**3**

Select the "Setup Wizard" icon and then select SSID.
Input the Network Key (Password) for your wireless access point/router.

\* The wireless network connection complies with IEEE 802.11 n/g/b standards and uses the 2.4 GHz frequency.

Continue with "**Registering Your Machine with ScanNCutCanvas**" below.

Your machine is already registered with ScanNCutCanvas. **The entire setup operation is completed.**

**Note**
• You can also connect your machine to a wireless network using the application "WLAN Assistant Wizard" (WAW). Download the application from http://solutions.brother.com/snc2waw. Perform the setup according to the instructions that appear.

## Registering Your Machine with ScanNCutCanvas ("ScanNCut Online" Setting)

The beginning step differs depending on the last screen that appeared after completing Step 3 in "**Connecting Your Machine to a Wireless Network**" above.

**Case 1: Activation required**

Specify the "ScanNCut Online" setting in order to send cutting data between ScanNCutCanvas and the machine. Prepare the ScanNCut Online

Step **4** ▶ Step **5**

**Case 2: Activation not required**

Specify the "ScanNCut Online" setting in order to send cutting data between ScanNCutCanvas and the machine. Prepare a computer or tablet

Log in to ScanNCutCanvas. Get [ PIN Code ] Step 1: 👤 Click this icon. Step 2:
No. 32012345678-X

Step **5**

Your machine No. is displayed.

**4**

Prepare the "ScanNCut Online Activation Card" and a coin, and then scrape the silver foil off the card.
Type in the activation code written on the "ScanNCut Online Activation Card".

Your machine No. is displayed.

**Note**
• Depending on the model, the "ScanNCut Online Activation Card" may not be provided with your machine. In that case, it must be purchased separately.
• The uppercase letters "I" and "O" are not used in the activation code.
• The activation code is valid for only one time activation. The same activation code cannot be used again.

**5**

From a computer or a tablet, log in to ScanNCutCanvas (http://ScanNCutCanvas.Brother.com/).

\* **New users must create a free ScanNCutCanvas account.**

**6**

Click [👤] then click "Get PIN Code" at "ScanNCut Online" menu.

\* The screens may differ from the actual ones.

**7**

Type in your machine number to generate a PIN code.

\* Your machine number appears on your machine in the screen shown in Step 4. The four-digit PIN code appears after clicking "Next".

**8**

Input the four-digit PIN code into the machine.
The registration of your machine with ScanNCutCanvas ("ScanNCut Online" setting) is completed.
Page 7 of the settings screen appears with the ScanNCutCanvas login ID linked to your machine.

**Note**
• For details on transferring data, refer to the back of this guide or "Operation Manual".
• You can also start procedures described in "Registering Your Machine with ScanNCutCanvas" by touching "Register" beside "ScanNCut Online" on page 7 of the settings screen.

# Recalling Data Created/Edited in ScanNCutCanvas from Your Machine

For details on the operations in ScanNCutCanvas, refer to "Help" for ScanNCutCanvas on the computer or tablet by clicking ❓ at the top of the web page.
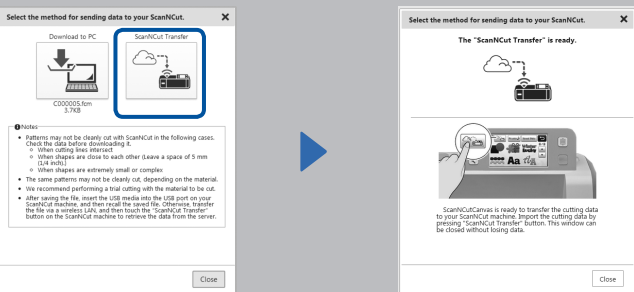

**1**

or

Open ScanNCutCanvas, and create the data that you want to send to your machine.
Click "Download".

* You can also download a pattern from the list of "My Projects".

* The screen seen on a tablet slightly differ.
  For details, refer to "Help" for ScanNCutCanvas.

**2**

Click "ScanNCut Transfer" to transfer the cutting data to your machine.

**3**

Touch 🔲 to recall the pattern.

# Saving Data Edited from Your Machine to ScanNCutCanvas

**1**

Save the cutting data to ScanNCutCanvas from your machine.

**2**

In ScanNCutCanvas, click the "My Projects" tab or 📂.

The pattern saved from your machine appears in the "My Projects" screen.

* If the pattern does not appear, click 📂 to refresh the screen.

# Error Codes/Error Messages

The causes and solutions for the error codes/error messages are shown below.

| Error code | Cause /Solution |
|---|---|
| Err-01 | The wireless network setting is not activated. Enable the wireless network function on your machine. |
| Err-02 | The wireless access point/router cannot be detected.<br>- Temporarily place your machine within about 3.3 feet (one meter) from the wireless access point when you are configuring the wireless settings.<br>- If you manually entered the SSID and security information, try to re-enter the correct information. |
| Err-03 | The Authentication/Encryption methods used by the selected wireless access point/router are not supported by your machine.<br>For details on the authentication method and encryption mode supported by your machine, refer to "**Error codes/Error messages**" in "Wireless Network Setup Guide". |
| Err-04 | The security information (SSID/Network Key (Password)) is incorrect. Reconfirm the security information (SSID/Network Key (Password)). |
| Err-05 | The wireless security information (Authentication method/Encryption method/ Network Key (Password)) is incorrect.<br>Reconfirm the wireless security information (Authentication method/Encryption method/Network Key (Password)) in the table of Err-03 in "**Error codes/Error messages**" of "Wireless Network Setup Guide". |

| Error Message | Cause /Solution |
|---|---|
| A network error occurred. | A network error occurred during communication.<br>- Check that your wireless access point/router is turned on.<br>- Check that the network cable of your wireless access point/router is plugged in. |
| Cannot read the data. Get the PIN code again and register to the machine. | - This message appears when you try to transfer data with a machine different than the one registered with ScanNCutCanvas.<br>- The registration of your machine has been canceled from ScanNCutCanvas. |
| Cannot save the data. Get the PIN code again and register to the machine. | Register the machine to be used again. |
| Unconnected to the network. Check the network connection status. | A network connection may not yet be established. Wait a while, and then try again. |
