

TENNESSEE MANUFACTURING FACILITY

Brother's state-of-the-art, 1.5 million square-foot manufacturing and distribution facility is centrally located in Bartlett, Tennessee. From this location, we offer a high level of service and a broad product mix to our customers allowing us to create and maintain a high level of customer satisfaction by providing world class manufacturing services and solutions.

Brother continuously considers the environmental impact of all aspects of our operations, including operations at our Tennessee facility. Our engineers aim to constantly enhance our advanced environmental technologies and to improve our manufacturing process while reducing our carbon footprint.

Brother's commitment to the environment in our Tennessee facility includes the following:

- Solid waste reduction landfill
- Demonstrated commitment to spill prevention
- Sponsors and participates in annual native tree planting event

Awards and recognitions:

- 2014 Tennessee Business Recycler of the Year (presented by the Tennessee Recycling Coalition)
- 2013 Governor's Environmental Stewardship Award for Excellence in Energy and Renewable Resources
- 2012 Energy Star site

OUR POWER. OUR PLANET. **OUR PROMISE.**

The 5R Concept

Since 1999, the Brother Group has been conducting environmental activities based on the "5Rs", which adds "Refuse" and "Reform" to the "Reduce," "Reuse" and "Recycle" 3Rs as the basis for establishing a sound material-cycle society. "Reform" in particular is an original idea from Brother for creating value by introducing novel approaches and ideas for changing the state of a waste material.

*"I've been using Brother Gearmotors for 15 years because they offer superior dependability and quality construction. These motors have a long life and offer easy installation through their shaft construction, which translates into a maintenance-free, * highly reliable product."*

*- Clifford Smith, President, Modular Packaging Systems, Inc.
* Based on customer's experience with Brother Gearmotors*

Brother Gearmotors

A division of Brother International Corporation, Brother Gearmotors offers a wide range of high-quality, sub-fractional AC gearmotors and reducers in demanding industries such as food & beverage, packaging and material handling. Brother Gearmotors is one of the world's largest fine-pitch gear manufacturers and was designed in response to the industry's demand for smaller, lighter more reliable and energy-efficient power transmission and motion control components.

Now is a great time to have Brother at your side!

Our gearmotors are high-quality and compact in size, making them one of the best choices for a wide variety of applications. Our products are sealed for life and often require less energy than competitor brands. Our gearboxes come with many options and mounting configurations, so it's easy to customize them for your needs. Because Brother has diverse industrial experience, we can provide our customers with invaluable, in-depth industry knowledge and resources.

Brother Gearmotors

Brother Gearmotors is a division of Brother International Corporation, an organization with diverse industrial experience, allowing us to provide our customers with the resources of a large global corporation.

Under its parent company, Brother Industries, Ltd., the Brother Group delivers products and services to customers all over the world with several production facilities, mainly in Asia, that produce high-quality products under a reliable quality control system. There are Brother sales offices in 44 countries and regions around the world.

Our manufacturing facility is ISO 9001:2008 and ISO 14001:2015 certified and 99.9% of everything that's used is recycled.
