CONFIGURATION

Dear Customers,

**SIP-ITALY** is a division of our company specialized in the development and production of automatic units for Jeans & Trousers.

Our passionate team has 25 years working experience in this field.

With the technical support of Brother Industries, we achieve the goal to manufacture friendly use automatic work-stations, with best ratio in terms of productivity and versatility at the lowest running cost.

Most of our automatic workstations are equipped with common electronic hardware and standard sewing heads manufactured by Brother Industries. It is a win-win technical cooperation giving incredible benefits to our users. We are proud to utilize in most of our units the new technology **Brother Industries**.

Majority of our products can be link with **network connectivity**, a new era of industrial sewing machines. In this way at example, customer can download productivity data, to set a maintenance programme, to get error message or downtime alarm signal, to transfer software or sewing pattern. This is the **Factory 4.0**, actual benchmark for all Industries.

Brother Industries is also a strategic marketing partner with common sales channel distribution.

We, **Brother Industries** & **SIP-ITALY** as manufactures, in cooperation with our distributors are actually the best proposal for complete turnkey solution for new green jeans factory. This kind of total turnkey solution is a mix of best advance technology and garment production know-how.

Trust on us! **SIP-ITALY Team**
