HL-L9200CDWT

Color Laser Printer with Low Cost Printing and Dual Paper Trays

The Brother™ HL-L9200CDWT is ideal for mid-sized workgroups looking for a color laser printer to provide easily-managed, low-cost printing in demanding, multi-user applications. It boasts a low color cost per page that's up to 50% less than comparable color laser models*. 800-sheet total paper capacity helps reduce user intervention, and automatic duplex printing helps reduce paper use. Enterprise-level security includes Secure Function Lock to administer color print controls and other machine features for up to 100 users and Active Directory (using LDAP) to provide network user authentication. The HL-L9200CDWT incorporates the Brother Solutions Interface to help administrators create a company-wide print strategy that works with existing applications to implement rules-based printing and document management, as well as aid in cost recovery.

Specifications:
