PT-1400 Specifications

PRINTING FEATURES

- Prints durable laminated labels (up to 1" wide)
- 180 dpi printing
- Prints rotated text/graphics for easy cable/wire wrapping
- Prints up to 7 lines depending on width of tape
- Includes 9 industry standard bar code protocols
- Prints text in 8 sizes and 4 character widths
- Auto sizing, sequential alpha/numeric and repeat printing
- Automatic cable/wire label generation
- Easily change label type without retyping text

LABEL-DESIGN FEATURES

- Built-in telecom templates for patch panels, cables, wires and faceplates
- A full selection of telecom/datacom industry symbols
- Special formatting features including alignment and framing

EASE-OF-USE FEATURES

- Easy grip, vertical style machine
- Lightweight, less than 1.5 lbs.
- ABCD/number keyboard
- LCD display: 15 characters x 2 lines
- Uses interchangeable TZ tape cassettes; allows you to switch tape sizes, color and adhesive types in seconds
- Memory functions to store frequently used label templates
- Industrial tape cutter

CARTON CONTENTS

- PT-1400 Labeling System
- Standard Laminated Tape
- Extra Strength Adhesive Laminated Tape
- User manual
- 6 AA batteries
- Wrist strap

SPECIFICATIONS

- Powered by 6 AA batteries (included) or optional AC adapter (not included)
- One year limited warranty
- Unit dimensions: 4.5" x 3.1" x 9.3" (w, d, h)
- Unit weight: 1.2 lbs. without batteries

OPTIONAL ACCESSORIES *

- All TZ tapes
- AC adapter
- Protective carrying case
- Rubber impact guards

* Requires additional purchase

P-touch®

The right tape for the job.

Better performing labels by design …

P-touch TZ Laminated tapes are legendary for their durability and crisp appearance even when subjected to temperatures from -30 to 100 degrees C, water, grease, grime, and industrial solvents like acetone. Our patented lamination process – where the text and graphics are printed under a clear protective laminate – is a critical factor in producing labels that remain clearly readable for years, even in the harshest environments, and resist abrasion and fading.
All available in interchangeable, no-waste TZ cassettes …

With the PT-1400, you can produce durable laminated labels in a variety of colors, in sizes from 1/4" to 1" wide, and with a variety of adhesives to meet your specific labeling challenges. Changing colors, sizes and adhesive types is as quick and easy as popping in a different TZ tape cassette. It only takes seconds, and there's no waste – the cassette you replace can be used again and again, even in other TZ-compatible labelers that accept the same size, until the tape in that cassette is depleted.

General Tape Features

- **Laminated construction for durability**
- **Single-piece cartridges**

Tape Structure

- Protective Laminate (PET-polyethylene)
- Ink
- Adhesive (Acrylic)
- Base Film and Color
- Adhesive (Acrylic)
- Separator

- **Over 26' long –** Makes 100 three-inch labels

Special Applications: For wrapping or flagging cylindrical shaped items, such as wires and cables, we suggest TZFX Flexible ID Laminated Tape. For applying labels to fabric, we suggest TZFA Fabric Iron-on Tape.

Standard Adhesive Tape – Laminated

For Flat, Smooth Surfaces, Indoors and Outdoors

Perfect for labeling:
- File folders and binders
- Name badges
- Small signage

The widest selection of colors and sizes for everyday home, home/office and general business office needs.

Our standard adhesive tapes are designed for flat, smooth surfaces, and resist water, grease or grime – the laminated surface wipes clean – and fading and abrasion. They also withstand temperatures from -30 to 100 degrees C and can be used for indoor and outdoor applications.

Extra Strength Adhesive Tape – Laminated

For Tough Applications

Perfect for labeling:
- Harsh environments
- A variety of plastics
- Painted surfaces
- Textured surfaces

Produce labels with stronger adhesive strength than our standard laminated labels.

P-touch Extra Strength Adhesive Tapes are an exciting breakthrough in labeling your most challenging surfaces. Their extraordinary adhesive properties — up to twice as strong as our standard laminated labels — make them ideal for the toughest labeling tasks you face.
