

Healthcare Technology Compatibility with Brother Devices

To demonstrate our commitment to providing healthcare facilities with high-quality, cost effective document management solutions that address the needs and challenges of the healthcare industry, Brother devices offer compatibility with a number of leading healthcare technology vendors. These include:

Electronic Medical Record (EMR) Applications

Cerner: Recognized for innovation, Cerner offers solutions and services for healthcare organizations of every size. Together with their clients, Cerner is creating a future where the healthcare system works to improve the well-being of individuals and communities. Healthcare facilities using Cerner EHR systems can confidently choose any Cerner-validated Brother products to reliably print and scan from Cerner's system – seamlessly and securely.

Compatible Brother models include:

MONO LASER:

| | | |
|-------------|-------------|--------------|
| HL-L5100DN | HL-L6400DW | MFC-L5800DW |
| HL-L5200DW | HL-L6400DWG | MFC-L5900DW |
| HL-L5200DWT | HL-L6400DWT | MFC-L6700DW |
| HL-L6200DW | DCP-L5500DN | MFC-L6750DW |
| HL-L6200DWT | DCP-L5600DN | MFC-L6800DW |
| HL-L6250DW | DCP-L5650DN | MFC-L6900DW |
| HL-L6300DW | MFC-L5700DW | MFC-L6900DWG |

COLOR LASER:

| |
|--------------|
| HL-L8260CDW |
| HL-L8360CDW |
| HL-L8360CDWT |
| HL-L9310CDW |
| MFC-L8610CDW |
| MFC-L8900CDW |
| MFC-L9570CDW |

SCANNERS:

| |
|-----------|
| ADS-2200 |
| ADS-2400N |
| ADS-2700W |
| ADS-2800W |
| ADS-3000N |
| ADS-3600W |

Allscripts: Allscripts electronic health records (EHRs) are industry-leading solutions that meet and exceed the needs of today's healthcare organizations. In terms of Allscripts compatibility on Brother devices, many Brother products are equipped with an ISIS compliant driver for scanning from applications like Allscripts.

To learn more about Epic, please visit: www.epic.com.

In terms of Epic compatibility on Brother devices, many Brother products are equipped with a TWAIN compliant driver for scanning from applications like Epic.

MEDITECH

MEDITECH: MEDITECH provides a comprehensive and integrated electronic health record (EHR) designed to help your organization increase patient safety, streamline processes, and improve patient safety and transitions of care.

In terms of MEDITECH compatibility on Brother devices, many Brother products are equipped with a TWAIN compliant driver for scanning from applications like MEDITECH.

Advanced Document Capture

EPHESOFT

Ephesoft: Using supervised machine learning and a focus on efficiency and reliability, Ephesoft delivers Smart Capture® technology on a private or public cloud platform that turns the world's unstructured content into actionable information. For more information, please visit: <https://ephesoft.com/>.

| Brother devices supported include: | Discontinued models include: |
|------------------------------------|------------------------------|
| ADS-2400N ADS-3600W | ADS-2500We |

KOFAX

Kofax: Kofax VRS (Virtual Rescan) is an application provided by Kofax which comes with advanced image processing, allowing for the enhanced quality of scanned images. It will automatically apply these settings to improve and clean scanned images.

Kofax VRS is capable of working with some non-certified or compatible scanners, but users may experience less than adequate image quality with a non-certified scanner as opposed to a certified scanner. In order for a non-certified scanner to work with Kofax VRS, it must support a TWAIN or ISIS driver.
