

## BROTHER IS 'AT YOUR SIDE' TO SUPPORT YOU THROUGH CHANGE

The world is changing, and as a result, there will be an impact on the way we live and work.

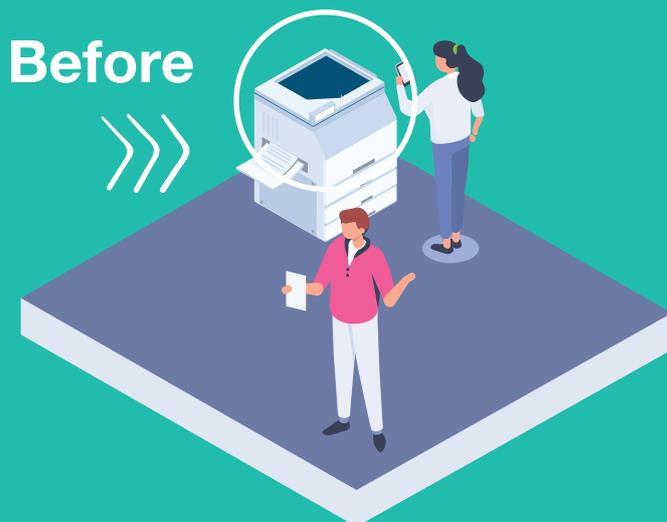

### No restrictions

- Staff queuing at communal printers
- People gathering freely

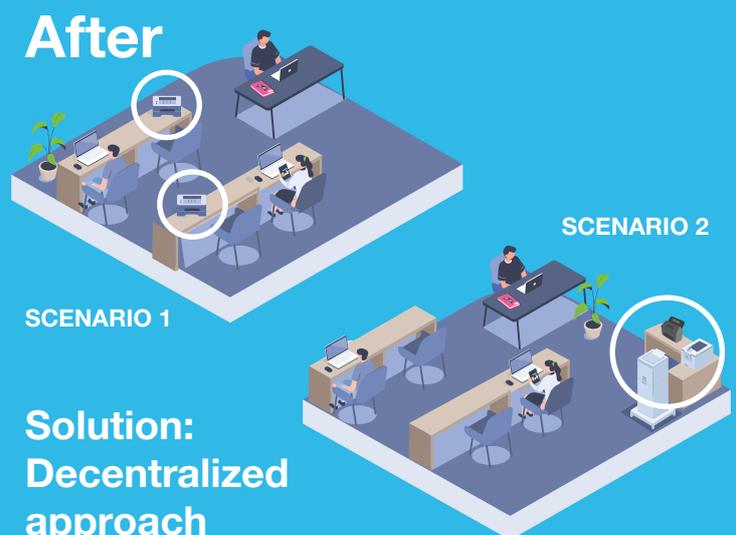

### Strict rules and regulations

- Printers on all desks or flexible printer "pods" with the appropriate number and type of devices within close proximity to workgroups
- Print job release capability with employee badges and mobile devices to securely retrieve documents
- Reduced contact between colleagues
- Respect to social distancing
- Improved productivity and optimized costs

### Problem: Centralized approach

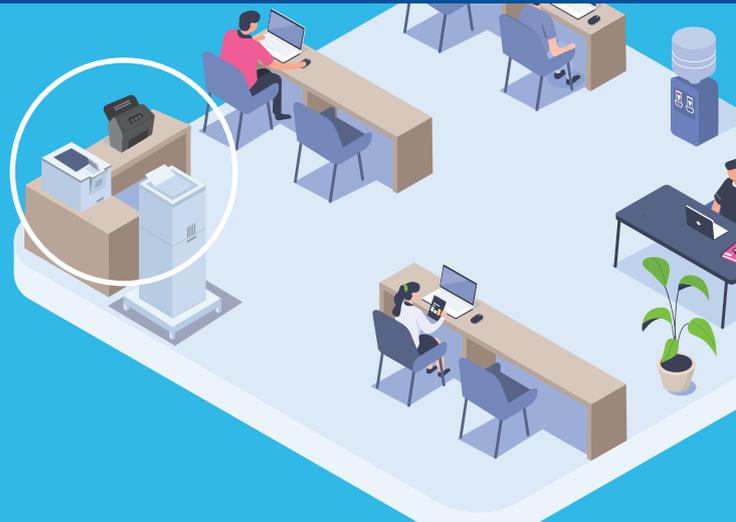

- No social distancing
- Multiple users touching and interacting with the same shared "big iron" copier device

### Solution: Decentralized approach

- Printers on all desks or flexible printer "pods" with the appropriate number and type of devices within close proximity to workgroups
- Print job release capability with employee badges and mobile devices to securely retrieve documents
- Social distancing easily adopted by staff
- Compact desktop devices between fewer users

# The Benefits of Printer Pods and Desktop Printers

## THE ADVANTAGES

### Help save time and costs

Optimize your resources

### Triple layer security

Help limit device and document access and protect the network

### Efficient Workflows

Leaner and faster processes without users gathering

### Assistance directly from the printer

Remote deployment and support from the IT department

## BROTHER SOLUTIONS FOR SMART WORKING

### MONOCHROME AND COLOR LASER PRINTERS AND ALL-IN-ONES

### SCANNERS
