

# Help Simplify Tax Time with Brother Scanners

Designed to address key issues associated with preparing taxes, Brother desktop scanners enable you to digitize and organize invoices, expense reports, receipts, business cards, and more. Streamline the process of digitizing, organizing, and sharing financial documents – saving you significant time and enabling immediate access to all your important tax documents.

## **Securely Digitize Tax Documents**

Advanced Triple Layer Security features help to safeguard sensitive documents and securely connect to the device and network.

## **Easy Integration**

Wide driver and OS support provide easy integration into existing software applications. Wireless and mobile device scanning support today's remote and work from home environments.

## **Added Value with Bundled Software Suite**

Includes multiple software applications to optimize, enhance, and customize documents and workflows.

## **Handles a Variety of Documents**

Easily scan a variety of document sizes and types including legal, long paper, business and plastic ID cards, receipts, and more through the auto document feeder.

## **Advanced Image Optimization**

Image optimization features help to maximize output quality, including edge cleanup and background removal.

## **Enhanced Productivity**

Fast, two-sided scanning and powerful features help to simplify the way documents are captured, managed, processed, and delivered. Create, edit, and convert scanned documents into a wide variety of file formats including PDFs.
