

# WORKFLOW SOLUTIONS

## Special Solutions Team

SOLUTIONS  
& SERVICES  
PORTFOLIO

The **Brother Special Solutions Team (SST)** offers a customer-focused program to meet special requests and develop customized solutions to solve unique business needs and applications.

The Special Solutions Team actively engages with mid-to large-size businesses to define, test, and deliver an out-of-the-box solution that satisfies the business needs. This involves a collaborative process between Brother field engineers, IT professionals, and the reseller.

The Special Solutions Team has delivered a wide variety of solutions to meet the needs of customers in various environments worldwide.

SKU: BRPROSERV

### Special Solutions Team

Solutions for environments that have specific configuration / deployment requirements and document management needs.

#### Automated Device Deployment

Maximize uptime with automated deployment and easily configure multiple machines at one time, including configuration of advanced feature settings.

#### Mass Deployment Tool

Provides a configuration interface to help manage and remotely deploy mass distribution of device settings from a central location.

#### Driver Deployment Wizard

Easily deploy a customized print driver to a PC for installation of local or network-connected machines.

#### Auto Installer

Offers prestige plug-and-play drivers for MFPs, printers, and scanners.

#### Preconfigure Devices

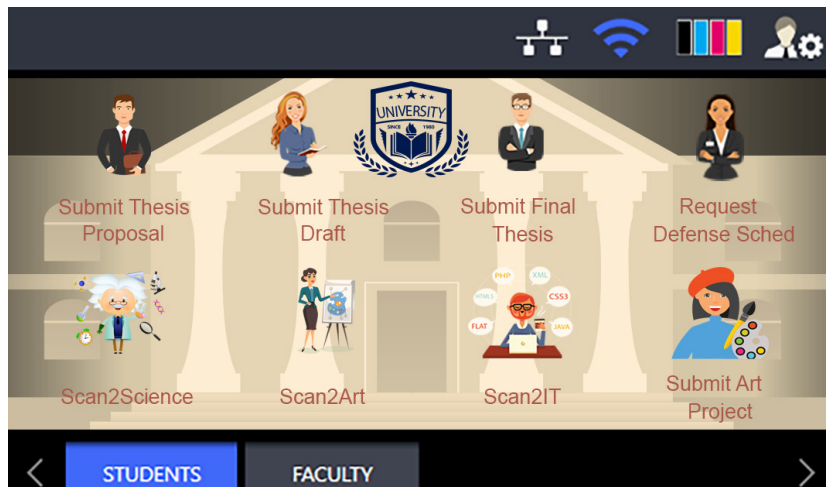

Ensures devices are ready to operate to business requirements, right out of the box.

#### Disable Features and Interfaces

Customizes the device to meet specific requirements and disables access to selected functions.

#### Custom Tailored Solutions

Solutions built to match your specific needs and requirements.

**A Custom User Interface** can be developed with preconfigured shortcuts, specifically designed for a company's unique workflow. A customized home screen can include only required features and can be branded with the company's logo.

**The Brother Special Solutions Team** provides dedicated training to channel partners and works with IT professionals and resellers in analyzing critical network and application issues to provide a customized solution.
