Printing and Scanning

**SOLUTIONS
& SERVICES
PORTFOLIO**

Brother offers a number of advanced connectivity options to help meet remote workgroup demands while on the go. Print and scan wirelessly from a smartphone or tablet¹ — quickly, easily, and securely.

Brother makes it easy to print important information virtually anywhere and anytime.

Apple® AirPrint®
Wirelessly print from
AirPrint-enabled devices

Mopria Print®
Wirelessly print from
supported Android™ devices

Brother iPrint&Scan
Wirelessly print from and
scan to various devices

Remote Workforce
Print and scan
wirelessly from a
smartphone
and tablet.

Built-in Solutions
Out-of-the-box mobile
solutions for your
Brother machine.

Mobile Environments
Compatible with iOS
and Android devices.

Brother iPrint&Scan

is a free downloadable app that offers you more control and enables printing from supported iOS and Android devices, as well as scanning to your mobile device when connected to a Brother printer or MFP. In addition, you can upload your documents to a supported cloud service or share via email.

Brother iPrint&Scan offers the following capabilities and benefits:

- ✓ Automatically find compatible devices on the network
- ✓ Edit previewed images (scale, straighten, crop)
- ✓ Print from or scan files to your device's library or from a cloud service²
- ✓ Send and view faxes directly via your mobile device
- ✓ View your machine's status, including toner and ink volume and error messages
