Logistics and Warehouse Solutions from Brother

Brother is at your side with printing, scanning, and labeling solutions that help meet the needs of warehouse environments. From pick tickets, shelf labels, barcodes, invoices, bills of lading, and more, Brother technology can help automate document-driven processes, while increasing workforce productivity.

- Automate the creation and printing of shipping labels – no handwritten processes required.
- Accelerate digital transformation with scanning solutions that help streamline document workflows.
- Improve costs by eliminating expensive, preprinted multi-part forms through Carbon Copy Print, available on select Brother laser printers.
- Speed up and simplify routine processes with wireless connectivity options.

RECOMMENDED PRODUCTS

PRINTING

HL-L6400DW Monochrome Laser Printer

Ideal for: Warehouse operations, manufacturing, logistics, distribution centers

Applications: Printing pick lists, bills of lading, invoices, daily shipping, inventory reports; carbon copy printing

Product Highlights:

- Includes a 12,000-page cartridge for built-in value; replace with a 20,000-page cartridge to maximize savings¹
- Helps protect against security breaches with triple layer device, document, and network security features
- Offers Carbon Copy Print, which identifies individual copies using custom watermarks, different colored paper, or different paper types.
- Restricts access via easy badge authentication using an integrated NFC card reader² or optional card reader
- Offers powerful printing capabilities for greater productivity, and durable design to withstand heavy usage
- Provides easy device navigation and printing from cloud services via color touchscreen³
- Offers remote installation, technical resources, and support for safe and easy setup

SCANNING

ADS-2400N Document Scanner

Ideal for: Warehouse operations, manufacturing, logistics, distribution centers

Applications: Scanning bills of lading, interchange tickets, proof of delivery, invoices

Product Highlights:

- Offers fast, high-precision scanning for greater productivity, and durable design to withstand heavy usage
- Features versatile scan-to destinations including Network folders, FTP/SFTP, SharePoint, and mobile devices⁴ to facilitate seamless billing processes
- Offers Gigabit Ethernet network connectivity and USB interface
- Includes a variety of integrated image optimization features to help maximize output quality
- Separates batches of documents automatically, using barcode-reading technology, and sends each document to the correct folder⁵
- Offers remote installation, technical resources, and support available for safe and easy setup

LABELING

QL-1110NWB Label Printer

Ideal for: Warehouse operations, shipping

Applications: Handling labels, temporary signage, shipping labels, product packaging

Product Highlights:

- Quickly prints shipping labels for most carriers
- Integrates with most of the commonly used shipping applications
- Prints on labels up to 4" wide; capable of printing shipping labels and postage for packages
- Features an intelligent automatic crop function to easily print product and other barcode labels from letter size label sheet templates (Windows only)
- Offers barcode printing capabilities ideal for warehouse and tracking information
- Lets you create and print labels from your mobile device when connected to a wireless network

TD-4420TN Label Printer

Ideal for: Warehouse operations, shipping

Applications: Heavy duty labels of all types: handling, inventory, shipping, shelf

Product Highlights:

- Offers 4" Thermal Transfer Technology
- Prints thermal transfer and direct thermal media up to 4.4" wide
- Offers print speeds up to 6" per second in either 203 dpi or 300 dpi resolutions, based on your model
- Comes with Ethernet, USB, and Serial standard
- Features seamless integration with leading warehouse management systems and other software applications
